## Business Notices.

## AN EXCITEMENT ON BROADWAY.

Yesterday the crowd was so great that it was almost impossible to get near the entrance of the grand hall and surrounding rooms at grand hotel, way near Blackett's, New York. Everything went fast. Time almost up. All good time spent in the day. We mention a few of the horribles that are off sale and advise our readers to eat at once, as this great sale will only last five days. The following are the principal articles:—  
A wonderful light and heavy weight silk and satin dress, and a splendid suit of men's clothes, \$300 guaranteed worth \$1,000, money returned. Broadcloth, woolens, and ribbons, all different kinds. A large number of hats, coats, waistcoats, men's suits, underwear and 2,000 different other goods we cannot name. Located on Broadway, near Blackett's, end of five days. Our readers must be cautious and examine the number carefully on the door and say "Is this a Broadway?" Before of mutations, not go in to the store unless you see Number 25 outside the door. We caution our readers to look at the men's cash register before entering the store and make sure it is correct. If not, it is not the great sale, as there are no returns.

## WHY COMPLAIN

of

## ENORMOUS GAS BILLS?

## GUARANTEED REDUCTION

of

## 15 TO 40 PER CENT!!

The U. S. Gas Commission, after supported by the united testimony of hundreds of the most intelligent scientists and best informed expert authorities of both Europe and America, have demonstrated that in order to insure the maximum of light, heat, and power, the maximum of gas pressure should not exceed one-tenth of an inch at the burner. Any excess of pressure tends to diminish the volume and quality of light and increasing expense in exact proportion to the pressure increased.

We have the means and the knowledge to reduce the pressure to the minimum of man, and add materially to the difficult problem of maintaining a low average pressure.

WE ARE AN AUTOMATIC GAS-SAVING GOVERNMENT.

They equal the pressure to 5 inches whether one or 100 feet apart.

The automatic action of valve cuts off excessive street pressure, when lights are extinguished, thus preventing all waste and bad odors from the gas.

THE CELESTIAL LIGHTING AND GAS-GIVING BUSINESS.

## ENSEA GUARANTEED GAS-SAVING EQUIPMENT.

## INCREDIBLE ECONOMY OF LIGHT.

## NO VAPOR &amp; VAPORS.
